

TOP TIPS

COBALT CARBON FREE

WHY INSULATE?

01

ENERGY EFFICIENCY

Insulating your home reduces heat loss, making it far more energy efficient and environmentally friendly.

03

REDUCED ENERGY BILLS

With better energy efficiency comes lower energy bills – saving you money while keeping your home warm.

05

TRANSFORM YOUR HOME

Not only will your home feel 'one of a kind' when finished to our high standards, but it will also look fantastic.

07

MORE COMFORTABLE

A well-insulated home regulates temperature better, so it'll be cosy and comfortable all year round.

09

TACKLE DAMP

Insulation acts as a barrier against moisture, helping prevent damp and mould issues in your home.

02

PROTECT THE ENVIRONMENT

Insulating your home may reduce your annual CO₂ production by up to 2000kg, helping to protect the planet. Join us on the carbon-free journey!

04

HEALTH BENEFITS

Insulation helps block allergens and pollutants, creating a healthier environment for you and your family.

06

INCREASE IN HOME VALUE

Improving your home's energy efficiency and appearance adds long-term value, making insulation a smart investment.

08

LANDLORD COMPLIANCE (MEES)

If you're a landlord, insulation helps ensure your property meets the Minimum Energy Efficiency Standards, keeping you legally compliant.

10

SOUND BARRIER

Insulation also provides a sound barrier, so external noise won't be as disruptive, making your home even more peaceful.

For a warmer, more energy-efficient home that's healthier, quieter, and kinder to the environment, insulation is a smart investment. Contact Cobalt Carbon Free today to find out how we can help transform your home with our high-quality, eco-friendly solutions!
